

Dynalite System Integration

DDNG-BACnet J-8025 Platform N4

Enables high level integration between a Philips Dynalite system and any building management system (BMS) that uses the BACnet protocol.

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

Product data

General Information	
Remarks	Please download the Lighting - Product Data Sheet for more information and ordering options
Application Conditions	
Ambient temperature range	-20 to +50 °C
Product Data	
Full product code	871869688835300

Order product name	DDNG-BACnet J-8025 Platform N4
EAN/UPC – product	8718696888353
Order code	913703247009
SAP numerator – quantity per pack	1
Numerator – packs per outer box	1
SAP material	913703247009
SAP net weight (piece)	403.000 g
